\*EXAMINER: Initial reference considered whether information should be included in the PTO file. Drawings should be included if they are necessary to understand the invention. Consideration of the form with the information used by applicant.

\*Unique citation designation number: See attached copies of U.S. Patent Documents. Enter only what appears in the primary document.

\*Cite No.: The number assigned to the document by the examiner. It is not the same as the document number.

\*Office: The country where the document was published. Enter only what appears in the primary document.

\*Number: The number assigned to the document by the examiner. It is not the same as the document number.

\*Kind Code: The code assigned to the document by the examiner. It is not the same as the document number.

\*Name of Patentee or Applicant of Cited Documents: The name of the patentee or applicant of the cited document.

\*Date of Publication of Cited Document: The date of publication of the cited document.

\*Pages, Columns, Lines, Where Relevant: The pages, columns, lines, where relevant, passages or relevant figures appear.

\*T<sup>6</sup>: The number assigned to the document by the examiner. It is not the same as the document number.
